

Student Last Name _____

BYOD Agreement

Eastern Westmoreland Career and Technology Center is pleased to offer our students the opportunity to bring their own device to enhance and aid in their learning opportunities. Devices are to be used for instructional purposes only. We are dedicated to the support of appropriate technological resources and preparing our students for success in a competitive global and electronic age. Access to these resources and understanding when and how these tools are appropriately and effectively used is imperative. Adherence to this agreement, as well as ALL applicable Eastern Westmoreland Career and Technology Center policies, is necessary for continued access to the school's technological resources and each student's success.

- All rules and guidelines stated in the USE OF TECHNOLOGY RESOURCES/ACCEPTABLE USE OF INTERNET and ELECTRONIC DEVICES policies are applicable to the use of students' personal devices during school, on school grounds, or at any school related function.
- Eastern Westmoreland Career and Technology Center has the right to confiscate any device that is used in violation of any of the rules contained in this agreement or policies; or that is used in violation of any instructions or directives by any teacher, administrator or other person who is in charge of the function or activity. Confiscated devices shall be returned only to the student's parent or guardian and on such terms and conditions as shall be determined by Eastern Westmoreland Career and Technology Center.
- Device care and security is the responsibility of the student. Eastern Westmoreland Career and Technology Center is not liable for any device damaged or stolen. Devices need to be locked in the individual student's assigned locker, if a student is unable to supervise his/her personal device. It is the student's responsibility to notify the school office if his/her school locker is not working properly.
- Students are not authorized to use other students' personal devices or permitted to allow others to use their personal devices.
- Students are not permitted to use the audio or video recording function of a device unless given express and specific permission in advance by a teacher or administrator and the individuals whose voices or activities are being recorded.
- Obscene language and/or inappropriate materials, including screensavers, backgrounds and/or pictures are strictly prohibited.
- Illegal use or transfer of copyrighted materials is strictly prohibited.
- Eastern Westmoreland Career and Technology Center's filter will be applied to Internet connections and using any means to bypass the filter is strictly prohibited. If students access the Internet through their personal data plan, it is with parental understanding that this is unfiltered access. However, while on school premises students are still required to follow this BYOD Agreement and Eastern Westmoreland Career and Technology Center policies.

- Attempts made to bypass network security or gain unauthorized access is strictly prohibited.
- Access to district network resources such as network drive space, printing, and shared public drives may not be possible from a personal device.
- Devices are to be fully charged prior to bringing to school.
- Eastern Westmoreland Career and Technology Center will not perform any device repairs or provide technical support beyond access to the Eastern Westmoreland Career and Technology Center wireless network.

I understand and will abide by all Joint Operating Committee policies and this BYOD Agreement. I further understand that any violation may result in the loss of my technological privileges, disciplinary action, and Federal, Civil and Criminal laws where applicable.
